Academics / Grading / Reporting

Elementary Grading Guidelines

Beliefs

- Grades include both formative and summative assessments.
- Grades provide clear, consistent, and timely feedback.
- Grades reflect content knowledge.
- Grades are an indicator of progress toward mastery of learning objectives.
- Grades are an opportunity for students to take ownership of, and responsibility for, their own learning.
- Behavior and effort are assessed separately from learning objectives.
- Grades are a method of communication between school, students, and parents.

Academic Grades

- Kindergarten - 5th Grades

Students will be evaluated using a standards-based report card. In standards-based grading, student progress is measured by determining student progress toward mastery of grade level standards. Rather than receiving one grade per content area, students will receive a breakdown of performance by standard enabling parents to more readily identify areas of academic strength and opportunities for improvement. In addition, the report card includes information on work ethic/habits and behavior that impact student achievement.

Opportunities for Reteach/Reassess

- Teachers will provide retake opportunities on summative assessments.

Extra Credit

- Extra credit is not available.

Communicating with Parents

- The electronic gradebook, PowerTeacher, is used for all grade reporting. Teachers will keep standards-based grades current to ensure that parents have an accurate representation of a student's current grades. Parents can see student grades through their PowerSchool Parent Portal account (online or via app).
- Progress reports will be available to parents at approximately the midpoint of each nine-week grading period. It is the teacher's responsibility to communicate with the parents of struggling students.
- Report cards are issued at the end of each nine-week grading period.
- Grading guidelines are subject to change; parents will be notified prior to any changes.

Report Cards

Report cards are issued every nine weeks. Teachers will make every effort to keep parents informed and involved in their child's educational development. Conferences with parents, notes home, emails, assignments sent home for signature, homework, and mid-term reports are a few of the methods teachers use to inform parents. Parents are encouraged to ask for an appointment with the teacher early in the year and to expect notification from the teacher regarding the student's progress.

Attendance

School attendance is critical because it underscores the significance of learning and the importance of obtaining an education in our society. It teaches responsibility, instills a work ethic, and helps develop good habits that will carry over to other aspects of life. Good attendance determines, to a large extent, a student's level of success in school. If you know your child will be absent, please call the school. An attempt will be made to call you if your child is absent and the school has not been notified.

Georgia Compulsory Attendance Expectations

O.C.G.A. 20-2-690.1 requires any person in this state who has control or charge of a child between the ages of six and sixteen to enroll and send that child to school, including public, private, and homeschooling. If a parent, guardian, or another person who has control or charge of the child causes the child's absence, then that person, and not the child, is in violation of this statute. Such a violation is a misdemeanor and carries a penalty of up to \$100 fine and 30 days in jail for each violation. The law specifies that each day's absence constitutes a separate offense. Violators will be prosecuted.

For purposes of this notice, the term "parent" includes any adult who has charge and control over the child, including a biological, adoptive, foster, or stepparent, a guardian or any other person who has primary responsibility for the child's welfare. In this regard, two parents residing in the same household with the child are equally responsible for the child's attendance in school.

Older children share the responsibility for their school attendance with supervising adults and are subject to adjudication in Dawson County Juvenile Court as an unruly child for violation of this statute. A complaint will be filed in the Juvenile Court of Dawson County against a child ten (10) to fifteen (15) who is habitually and without justification truant from school. For the purposes of determining the pursuit of court complaints, truancy is defined as five (5) or more days of unexcused absence from school.

Please note that parents may themselves choose to file truancy complaints prior to any complaint made by the school system. If a student is sixteen (16) or older, any complaints regarding truancy must be filed by the parents. A child may be placed on probation for truancy by the Juvenile Court Judge upon admission or determination of guilt (adjudication) to a truancy charge. This probation may last for up to two (2) years and may include specific conditions, including, but not limited to: a curfew, community service, participation in a truancy reduction program or counseling, and/or monetary fines. The District Attorney and/or the Department of Juvenile Justice may also request a protective order to ensure that the parent(s) actively assist the child's compliance with conditions of probation, including attendance in school.

Further unexcused absences from school by the youth may result in immediate sanction by the Department of Juvenile Justice, including a possible violation of probation, which may result in more severe penalties, up to and including detention. If you have questions regarding the

information included in this document, please contact the Principal of your child's school or the School Social Workers, who will be glad to address any questions you may have.

Attendance Procedures

Parents are expected to provide documentation for their child's absences as they occur. **When returning from an absence, a student must bring a written note (within 5 days) from the parent to the teacher, explaining the reason for the absence.** The school Attendance Support Team (AST) monitors student attendance and communicates with parents/guardians to address attendance issues before student achievement is affected. The AST meets as needed to review student attendance issues. Parents are invited to those meetings to present any additional information or extenuating circumstances related to the matter. The AST will contact parents to schedule an appointment. Dawson County Schools will accept no more than 10 parent-generated excuses. Also, schools will verify all excuses from medical offices once 10 are accrued. An exception is allowable with proper documentation from a medical or mental health practitioner indicating the current treatment, the student's diagnosis, and that their condition may require absences that do not necessitate an office visit, per treatment plan. Before returning to school, students must be fever free and symptom free for 24 hours without medication.

Excused Absences

Excused absences are defined as any absence of a student resulting from illness or from family illness, death within the immediate family, doctor and dentist appointments, special and religious holidays observed by the student's faith, conditions rendering school attendance impossible or hazardous to the child's health and safety, and mandated appearances like a court summons.

PowerSchool Student Information System records absences according to this legend:

- "E" – Excused absence from parent note
- "U" – Unexcused absence
- "M" – Excused absence/an office note brought in from a doctor/dentist visit
- "C" – Excused absence/documentation for a court appearance
- "D" – Excused absence/note from the parent stating death in the family Monitoring

Attendance In order for the attendance policy to work effectively, there must be communication between the school administration, students, and parents/guardians.

Equal Educational Opportunities (Policy JAA)

The School District does not discriminate on the basis of race, color or national origin, sex or disability in any student program or activity. It is the policy of the Board of Education to comply fully with the requirements of Title VI, Title IX, Section 504 of the Rehabilitation Act of 1973, the Americans With Disabilities Act and all accompanying regulations.

Any student, parent or other person who believes he or she or any student has been discriminated against or harassed in violation of this policy must make a complaint in accordance with the procedures outlined below.

If the complaint is made to a school principal, he or she shall be responsible for notifying the appropriate coordinator of the complaint. Reports or complaints other than those described in 1b shall be handled in accordance with the procedures starting in 2.
 - b. Such a report may be made at any time (including during non-business hours) by using a telephone number or electronic mail address, or by mail to the office address, listed for the Title IX Coordinator. Such reports will be handled in accordance with the procedures and grievance process specified by Policy JCAC.

If the alleged offending individual is the Superintendent, the complainant may have the complaint referred to the Board of Education, rather than the Superintendent.
5. The Superintendent shall have fifteen school days to review the complaint and the response of the coordinator or designee and attempt to resolve the complaint. The Superintendent shall furnish to the complainant a written response setting forth either his or her approval of the action recommended by the coordinator or designee or the action to be taken by the School District in response to the complaint in lieu of that recommended by the coordinator or designee and the time frame in which such action shall be taken.

7. The School District shall be responsible for distributing and disseminating information relevant to this policy and procedure to students, parents and employees through appropriate procedures.

This process could be utilized for any reason to best support the student

Gifted Students

Gifted Notification

The Dawson County School System follows the state-mandated gifted rule (160-4-2-.38) in providing services to those students who are identified as gifted. State guidelines require that parents/guardians of all public school students being considered to receive gifted education services be informed of the referral procedures and eligibility criteria, the notice of initial consideration for gifted education services, evaluation guidelines, types of services provided and instructional methods, continuation criteria, probationary status, and termination of services.

The Dawson County Board of Education recognizes the need to provide gifted education services for students who have the potential for exceptional academic achievement in grades K-12. A gifted student meets the eligibility criteria as identified in rule 160-4-2-.38 and as defined in the GaDOE Resource Manual for Gifted Education Services.

Teachers, counselors, administrators, parents or guardians, peers, self, or other individuals with knowledge of the student's abilities may refer a student for consideration for gifted educational services.

The Georgia Board of Education has set two standards of eligibility:

- A student may qualify by meeting a mental ability composite score plus an achievement test requirement, or
- A student may qualify by meeting 3 of the 4 criteria: mental ability, achievement, creativity, and motivation.

Any student who has met the state eligibility criteria for gifted education services in another Georgia public school system shall be considered eligible to receive gifted education services by the Dawson County School System upon the system's receipt of an eligibility report. A student transferring from a Georgia public school system to a Dawson County School must meet the criteria for continuation of gifted services established by the Dawson County Board of Education. Dawson County Schools shall not recognize gifted eligibility established in another state.

Written consent for testing shall be obtained from parents or guardians of students being considered for gifted education services. Parents or guardians also must provide written consent before students determined to be eligible for gifted education services can receive these services. Parents of gifted eligible students will be notified in writing of the types of services that will be provided, the academic standards to be met, how students will be evaluated, and program continuation criteria annually. Additionally, parents will be notified if their gifted child begins to have difficulties that could result in a probationary period or possibly termination of services. At any point in this process, parents or guardians may schedule a conference to discuss eligibility requirements and service options.

Concussion Awareness

Concussions at all levels of sports have received a great deal of attention and a state law has been passed to address this issue. Adolescent athletes are particularly vulnerable to the effects of concussion. Once considered little more than a minor “ding” to the head, it is now understood that a concussion has the potential to result in death, or changes in brain function (either short-term or long-term). A concussion is a brain injury that results in a temporary disruption of normal brain function. A concussion occurs when the brain is violently rocked back and forth or twisted inside the skull as a result of a blow to the head or body. Continued participation in any sport following a concussion can lead to worsening concussion symptoms, as well as increased risk for further injury to the brain, and even death.

Player and parental education in this area is crucial – that is the reason for this document. Refer to it regularly. This form must be signed by a parent or guardian of each student who wishes to participate in GHSA athletics. One copy needs to be returned to the school, and one retained at home.

Common Signs and Symptoms of Concussion

- Headache, dizziness, poor balance, moves clumsily, reduced energy level/tiredness
- Nausea or vomiting
- Blurred vision, sensitivity to light and sounds
- Fogginess of memory, difficulty concentrating, slowed thought processes, confused about surroundings or game assignments
- Unexplained changes in behavior and personality
- Loss of consciousness (NOTE: This does not occur in all concussion episodes.)

Emergency Response to Life Threatening Asthma or Allergic Reactions

Dawson County Schools has partnered with the District 2 Health organization to implement a program for the emergency response to life-threatening asthma or systemic allergic reactions (anaphylaxis). More than 20% of children have their first life-threatening allergic reaction at school. Designated school staff members are trained to assess the clinical signs, call 911, and administer the medications (the epinephrine injection or the nebulized bronchodilator). The student must be transported to the nearest emergency room for evaluation and treatment should a life-threatening asthma or allergic reaction occur.

Head Lice

Dawson County School District has developed the following Head Lice Guidelines based on the latest research and evidence available. These guidelines have been implemented to aid the staff of Dawson County Schools in identifying and taking appropriate action when cases of head lice are identified. The guidelines include steps of action to take when a case of head lice has been identified in the school setting, tips to prevent head lice transmission, tips for cleaning the school environment, and roles and responsibilities of the parents, guardians, and school staff members. Additionally, the guidance provides resources such as *10 days for Freedom from Head Lice* to aid parents and guardians in properly cleaning the home environment. If you would like

additional information about the Head Lice guidelines, please feel free to reach out to your child's school nurse. The following guidelines have been implemented to aid the staff of Dawson County Schools in identifying and taking appropriate action when cases of Head Lice are identified.

Head Lice Management Guidelines:

If a member of the school staff suspects a child is infested with nits or live head lice, the following procedures should be followed:

- The child should be screened by a staff member (school nurse, teacher, paraprofessional) to confirm live lice or nit infestation.
- The parents of the child must be contacted. Take this opportunity to educate the parent on Lice removal and prevention.
- If only nits/eggs are found, the child may return to class but should be restricted from close contact activities.
- If live lice are found, the parent must pick up the child.
- Send home the "Head lice or nits have been found on your child," parent letter, in addition to education for treatment of head lice.
- Students sent home with live lice must be screened by a staff member (school nurse, teacher, paraprofessional) before returning to the classroom the next school day. A student should not miss more than one consecutive school day due to head lice.

**Please note, if the parent cannot be reached or cannot pick up the child, the child may return to class and should be restricted from activities involving close contact. The child may ride the school bus home. Transmission via school bus seats is not likely because of the biology of head lice.

**If 3 or more live cases are found in the same classroom within the 7-10 day lifecycle, the "case found in the classroom" parent letter (see attachment #1), and written information on head lice treatment (see attachment #2) should be sent home notifying classmates' parents that a case of head lice is suspected and asking them to check all of their children for head lice.

Health Care Release

In order to provide the best possible care for your child, special health care needs or chronic conditions should be shared with appropriate school personnel. In the event of a life-threatening situation or critical injury, the school will take the appropriate emergency medical action. Additionally, the school will make every effort to notify the parent immediately. The parent is financially responsible for medical care and transportation.

Illness

Before returning to school, students must be fever free (below 100.4° F) and symptom free for 24 hours without medication.

Insurance

An insurance policy is available for the students. Forms will be given out the first day of school with information pertaining to cost and coverage.

Medication at School

If your child needs medication at school, the parent will need to take it to the school nurse in a the original container. Prescription drugs must be in the original container with a doctor signed order with directions. Parents will need to sign a permission form. Directions should accompany non-prescription medicine from home. Directions different from the directions on the label of any medication should be in writing, dated, and signed by the parent.

Visitors / School Safety

To ensure that our school is as safe as it can be, all visitors are expected to observe the following procedures:

- Visitors must enter the building through the main entrance and report directly to the office. This includes parents picking up students early or dropping off late.
- The front office staff will assist the visitor with signing in and getting a visitor sticker.
- Visitors must wear the visitor sticker at all times while in the building or on campus.
- At no time should any visitor go directly to a classroom without first coming to the office to register. All school personnel have been instructed to escort any unregistered visitors back to the office to get a visitor sticker.
- Any visitor or adult checking a student out will be asked for picture identification.
- Parent drop-off begins at 7:45 A.M. No supervision is provided prior to 7:45 A.M.

Because we have so many volunteers and guests in our building every day, the procedures outlined above could require a short wait. Please be patient, as the safety of our children is our first priority.

Media Center

The media center at our school is an important part of our school's educational program, providing staff and students with materials for research, pleasure reading, and production needs. A media advisory committee composed of faculty and parent representatives works with the media specialist to ensure that the needs and priorities of the school's instructional program are reflected in the services, policies, and procedures of the media program.

Circulation

Most of the print books located in the Media Center are available for student check out. Reference materials are for use in the media center or can become accessible to students through teacher check out.

Library Books are to be returned or renewed weekly and **students are responsible for all books they check out**. Prompt attention to late books is requested. If books are lost or damaged, parents are expected to pay in accordance with the scale fixed by the State Department of Education. If a book is found, a reimbursement will be made.

Parent Resource Room

A Parent Resource Room has been created for parents' use at every elementary school with informative and educational parent materials. You are encouraged to check out this helpful resource.

Student Expectations / Discipline

Positive Behavior Intervention and Supports (PBIS)

Positive Behavior Interventions and Supports (PBIS) is an evidence-based three-tiered framework to improve and integrate all of the data, systems, and practices affecting student outcomes every day. PBIS creates schools where all students succeed. Through this tiered system, negative actions are redirected and positive actions are acknowledged. Through the collaborative efforts of the administration, teachers, and students, school-wide behavior expectations have been established. PBIS Expectations are listed below:

KES: P.A.W.S. Pledge to do your best Accept Responsibility Work Together Show Respect	BMES: Bear Expectations Be Responsible Encourage Others A+ Attitude Respect Everyone
RES: Tiger PRIDE Positive Attitude Respectful Behavior Integrity Doing Your Best Empathy	RvES: SPARK a Spirit of Service Service Pride Attitude Respect Kindness

Student Code of Conduct – Board Policy JCDA

It is the policy of the Board of Education that each school within this school district shall develop and implement age-appropriate student codes of conduct designed to improve the student learning environment and which will comply with state law and State Board of Education Rules. Each code of conduct shall include the following, at a minimum:

1. Standards of student behavior during school hours, at school related functions, on school buses and at school bus stops designed to create the expectation that students will behave themselves in such a way so as to facilitate a learning environment for themselves and other students. The standards should be designed also to encourage students to respect each other and school district employees, to motivate students to obey student behavior policies adopted by this Board and to obey student behavior rules established at each school within this school district
2. Behavior support processes designed to consider, as appropriate in light of the severity of the behavioral problem, support services available at each school, the school system and other public entities or community organizations which may assist students to address behavioral problems
3. Progressive discipline processes designed to create the expectation that the degree of discipline imposed by each school will be in proportion to the severity of the behavior of a particular student, the previous discipline history of the student and other relevant factors, while ensuring that each student receives the due process mandated by federal and state law
4. Parental involvement processes designed to enable parents, guardians, teachers and school administrators to work together to improve and enhance student behavior and academic performance. The process should enable parents, guardians and school

employees to communicate freely their concerns about student behaviors which detract from the learning environment

5. All other specific requirements as set forth in any existing State Board of Education rule or in Georgia law

Each school shall involve parents in developing and updating student codes of conduct. Each code shall require disciplinary action for each infraction of the code. All student codes of conduct shall be submitted to the board for approval.

The student code of conduct shall be distributed to each student and the student's parents or guardians during the first week of school and upon enrollment of each new student. The parents shall be requested to sign an acknowledgment of the receipt of the code of conduct and return promptly the acknowledgment to the school. The student code of conduct shall be available in the school office and each classroom.

Teacher Reporting Requirement

It is the policy of the Board of Education that the Superintendent shall fully support the authority of principals and teachers to remove a student from the classroom pursuant to Georgia law as cited in §20-2-738 and § 20-2-751.5(d).

A teacher shall have the authority, consistent with board policy, to manage his or her classroom, discipline students, and refer a student to the principals or his designee to maintain discipline in the classroom. Any teacher who has knowledge that a student has exhibited behavior which violates the student code of conduct and repeatedly or substantially interferes with the teacher's ability to communicate effectively with the students in his/her class or with the ability of each student's classmates to learn shall file a report of such behavior with the principal or his designee. The principal and teacher shall thereafter follow the procedures set forth in Georgia law, specifically O.C.G.A. § § 20-2-737-738.

The Superintendent and/or his designee shall ensure that procedures are disseminated as necessary for implementation of this policy and applicable state laws.

Seclusion or Restraint of Students – Board Policy JGF(2)

The Board of Education shall require that all schools and programs within the district comply with the State Board of Education Rule 160-5-1-.35 concerning "seclusion" and "restraint", as those terms are defined within the rule.

This policy is not intended to prevent the use of physical restraint in limited circumstances where a student exhibits behaviors that place the student or others in imminent danger and the student is not responsive to verbal directives or less intensive de-escalation techniques. The Board of Education recognizes that in determining when and how to implement this policy and any procedures related to it, educators will have to exercise their professional judgment and discretion. Therefore, the policy is not to be construed as imposing ministerial duties on individual employees. Further, it is not intended to interfere with the duties of law enforcement or emergency medical personnel.

For schools and programs within the district that use physical restraint as defined within the SBOE rule, the Superintendent or designee shall develop and implement written procedures governing its use, which shall include the following provisions:

1. Staff and faculty training on the use of physical restraint;
2. Written parental notification within a reasonable time, not to exceed one school day from the use of restraint, when physical restraint is used to restrain a student;
3. Procedures for observing and monitoring the use of physical restraint;
4. Documentation by staff or faculty participating in or supervising the restraint for each student in each instance in which the student is restrained;
5. Periodic review of the use of restraint and the documentation described in item 4.

Bullying – Board Policy JCDAG

The Board of Education believes that all students can learn better in a safe school environment. Behavior that infringes on the safety of students will not be tolerated. Bullying, as the term is defined in Georgia law, of a student by another student is strictly prohibited. Such prohibition shall be included in the Student Code of Conduct for all schools within the school system.

Bullying is defined as follows: An act which occurs on school property, on school vehicles, at school bus stops, or at school related functions or activities, or by use of data or software that is accessed through a computer, computer system, computer network, or other electronic technology of a local school system, that is:

1. Any willful attempt or threat to inflict injury on another person, when accompanied by an apparent present ability to do so;
2. Any intentional display of force such as would give the victim reason to fear or expect immediate bodily harm; or
3. Any intentional written, verbal, or physical act, which a reasonable person would perceive as being intended to threaten, harass, or intimidate, that:
 - a. Causes another person substantial physical harm within the meaning of Code Section 16-5-23.1 or visible bodily harm as such term is defined in Code Section 16-5-23.1;
 - b. Has the effect of substantially interfering with a student's education;
 - c. Is so severe, persistent, or pervasive that it creates an intimidating or threatening educational environment; or
 - d. Has the effect of substantially disrupting the orderly operation of the school.

The term applies to acts which occur on school property, on school vehicles, at designated school bus stops, or at school related functions or activities or by use of data or software that is accessed through a computer, computer system, computer network, or other electronic technology of a local school system. The term also applies to acts of cyberbullying which occur through the use of electronic communication, whether or not electronic act originated on school property or with school equipment, if the electronic communication (1) is directed specifically at students or school personnel, (2) is maliciously intended for the purpose of threatening the safety of those specified or substantially disrupting the orderly operation of the school, and (3) creates a reasonable fear of harm to the students' or school personnel's person or property or has a high likelihood of succeeding in that purpose. Electronic communication

includes, but is not limited to, any transfer of signs, signals, writings, images, sounds, data or intelligence of any nature transmitted in whole or in part by a wire, radio, electromagnetic, photo electronic or photo optical system.

Procedures may be developed at each school encouraging a teacher or other school employee, student, parent, guardian, or other person who has control or charge of a student, either anonymously or in the person's name, at the person's option, to report or otherwise provide information on bullying activity. Any teacher or other school employee who, in the exercise of his or her personal judgment and discretion, believes he or she has reliable information that would lead a reasonable person to suspect that someone is a target of bullying is encouraged to immediately report it to the school principal. Any report will be appropriately investigated by the administration based on the nature of the complaint in a timely manner to determine whether bullying has occurred, whether there are other procedures related to illegal harassment or discrimination that should be implemented and what other steps should be taken. Any report of retaliation for reporting bullying will also be investigated and addressed as called for in this policy and in accordance with school procedures.

Acts of bullying shall be punished by a range of consequences through the progressive discipline process, as stated in the Code of Conduct. However, upon a finding by the disciplinary hearing officer, panel or tribunal that a student in grades 6-12 has committed the offense of bullying for the third time in a school year, the student shall be assigned to an alternative school.

Upon a finding by a school administrator that a student has committed an act of bullying or is a victim of bullying, the administrator or designee shall notify the parent, guardian, or other person having control or charge of the student by telephone call or through written notice, which may be done electronically.

Students and parents will be notified of the prohibition against bullying and the penalties for violating the prohibition by posting information at each school and by including such information in the student/parent handbooks.

Weapons – Board Policy JCDAE

It is the policy of the Dawson County Board of Education that a student shall not possess, use, handle or transmit any object that reasonably can be considered a weapon on property or in a building owned or leased by a school district, at a school function, or on a bus or other transportation provided by the school district. Weapons may include, but are not limited to:

1. Any handgun, firearm, rifle, shotgun or similar weapon; any explosive compound or incendiary device; or, any other dangerous weapon as defined in O.C.G.A. §16-11-121, including a rocket launcher, bazooka, recoilless rifle, mortar, or hand grenade.
2. Any hazardous object, including any dirk, bowie knife, switchblade knife, ballistic knife, any other knife having a blade of two or more inches, straight-edge razor, razor blade, spring stick, knuckles, whether made from metal, thermoplastic, wood, or other similar material, blackjack, any bat, club, or other bludgeon-type weapon, or any flailing instrument consisting of two or more rigid parts connected in such a manner as to allow them to swing freely, which may be known as a nun chahka, nunchuck, nunchaku,

shuriken, or fighting chain, or any disc, of whatever configuration, having at least two points or pointed blades which is designed to be thrown or propelled and which may be known as a throwing star or oriental dart, or any instrument of like kind, any nonlethal air gun, and any stun gun or taser. Such term shall not include any of these instruments used for classroom work authorized by the teacher.

Students who possess any weapon described in paragraph 1 in violation of this policy will be subject to a minimum of one calendar year expulsion. The Superintendent shall have the authority either before or after the student is referred for a tribunal hearing to reduce the mandated one year expulsion under circumstances where the one year expulsion appears excessive to the superintendent. The tribunal shall also have the authority to modify such expulsion requirement on a case-by-case basis in determining the appropriate punishment. Finally, in any tribunal decision appealed to the board of education, the board may reduce the mandated punishment but shall consider whether the superintendent and/or tribunal considered a reduction and any rationale in denying such a reduction.

Students who possess other weapons or hazardous objects as described in paragraph 2 will be subject to discipline as specified in the student code of conduct.

Reporting Requirements

Any employee who has reasonable cause to believe that a student possesses a weapon as defined in paragraph 1, is involved in an assault using a weapon as defined in paragraph 2, or is involved in a second offense with a weapon on campus must report such violations to the principal or assistant principal of the school. If the principal has reasonable cause to believe that such report is valid, he/she must immediately make an oral report to the Superintendent and to the appropriate law enforcement authority and district attorney.

The student's parents or guardian will be notified immediately of his/her child's involvement in any activity involving weapons.

Students will be given a copy of the Code of Conduct, which includes a statement of prohibited conduct with regard to weapons and possible disciplinary actions.

Permission to Ride Protocol

Students are expected to follow all school rules regarding riding the bus. Students are assigned to a bus to ride with a designated bus stop. Students are required to get on and off the bus at the designated bus stop. If a student needs to get on/off the bus at a different spot or if the student needs to ride a different bus, a written notice must be submitted to the main office in the morning. The note must state the reason for the request and a phone number must be included in the event parent contact is needed. The note, signed by the school official, must be presented to the driver requesting the bus change for that specific day(s). In case of an emergency, the school administration may write a note requesting the change. Bus drivers are not allowed to let students on or off the bus except at the designated stop or to ride a different bus unless the note is presented with the proper signatures.

Bus Conduct (Grades K-5)– Regulation JCDAD-R(1)

The transportation of students is an important function in our school system. Every precaution must be taken to see that students are transported safely. The Code of Conduct and Discipline Procedures that apply for the school, also apply while students are being transported by any vehicle provided for the transportation of students. In addition, it is important that students abide by bus discipline policies.

Bus Safety Rules

1. Students will follow the directions of the driver.
2. Students should be at the bus stop five minutes before the bus arrives, waiting in a safe place, clear of traffic and 12 feet from where the bus stops.
3. Students will wait in an orderly line and avoid playing.
4. Students will cross the roadway in front of the bus after the bus has stopped, they have looked at the driver for a hand signal, and they have looked in both directions for traffic, left, right, left.

14. Students must provide a Bus Pass, signed by a school official, giving permission and an address to ride a different bus or get on or off the bus at a different bus stop location.
15. Students will help keep their bus clean and in good, safe condition.

Other Bus Safety Considerations

1. The driver should not move the bus if students are standing forward of the standee line (forward of the two front seats) or in the step well.
2. Students riding a different bus or disembarking at an approved stop other than their assigned stop must have a completed bus pass signed by the school.

Student Meals

School Nutrition Program 2023-2024

We welcome your child to the School Nutrition Program in the Dawson County School System. The food service program is a self-sustaining program that operates from monies received through reimbursements from federal and state programs, as well as through purchased a-la-carte items. Meal choices are offered daily at each school. Current monthly menus are posted at each school as well as the school system's website.

When paying for meals, please note the following:

1. Paying with cash – put your payment in a sealed envelope on which you've written your child's name, ID number, and teacher's name.
2. Paying by check – write the child's name, ID number, and teacher's name on the check.
3. Paying for more than one student at the same school – please write each student's name, each student's ID number, and their teacher's names and the amount of money you are paying for each child on the check or envelope.
4. Paying with debit or credit card on www.MySchoolBucks.com. There is a \$2.75 charge per transaction per student and no charge for viewing account information.
5. Student funds – Please check on a regular basis to be sure your student has adequate money in his/her school meal account, especially if you allow your student to use money from their meal account to buy extras in the school café.

Family Applications for Free and Reduced Meals

For the past two years, all students received free breakfast and lunch due to the global pandemic. The waiver that allowed for this has expired which means meals will no longer be free for the 2023-2024 school year. If you believe your family/child qualifies for free or reduced priced meal benefits, please complete a family Free/Reduced Meal Application. Please complete only one application for your family. Be sure to list all students enrolled in Dawson County Schools, as well as all other family members on the single family application. A new application must be completed for your family each school year. Even if your student(s) were determined eligible for the benefit last school year, a new application must be completed for this school year. Applications for free and reduced meals are available to submit online at www.MySchoolBucks.com or at www.dawsoncountyschools.org

A-la-carte Procedure:

Supplemental sale items cannot be charged. The signed parental permission form must be on file if a student is not allowed to purchase supplemental sale items from their account. Please provide money for your student's a-la-carte items each day or prepay in advance. To assist parents, student account balances can be monitored at any time via our online payment program, MySchoolBucks.com. This service can be used regardless of whether you use the online funding option (a service fee of \$2.75 is charged) or send cash or checks directly to the school. Create an account for each student, then throughout the year, monitor the student meal account balance (or fund their account). Add your student(s) by entering their student ID number and selecting their school. We highly recommend that you set a Low Balance Alert (\$10 or higher is suggested) using the links on the page to receive an email reminder when funds are

low. Dawson County Schools has a student meal charge policy set at \$25.00 per student. When per student charges exceed the \$25.00 limit, a student will receive an alternative meal comprising all of the required nutritional standards. Parents are urged to resolve charges immediately.

School Nutrition Managers make every effort to inform students and parents when funds are low by sending weekly notices home via students, verbal reminders to students, telephone calls, and/or emails. Parents are responsible to ensure that children have an adequate lunch from home or sufficient funds to purchase a-la-carte items.

Adult meal charges must be paid monthly. Parents can get student meal history and account information from www.MySchoolBucks.com. In the event the cafeteria receives a returned check due to Non-Sufficient Funds (NSF) or a closed checking account, a \$30 processing fee will be levied to cover costs for the returned check.

- c. Students are responsible for the appropriate use of any device brought to school. Students are responsible for reporting inappropriate use to their teachers, administrators or other school staff.
- d. Parents are responsible for working with school principals to identify those situations where exceptions to this regulation are necessary to secure the health or safety of their children, and to participate in creating a plan for appropriate use under their family circumstances within the educational environment. Parents are responsible to reinforce the appropriate use of personal electronic devices or district provided devices by their children.
- e. The Principal is responsible for communicating this regulation to all school staff, and to all students.

I understand that using digital devices, whether personal or school owned, and the DCS network is a privilege, and when I use them according to the Responsible Use Guidelines, Use of Electronic Devices Policy, and Internet Acceptable Use Policy, I will keep that privilege.

All members of Dawson County Schools' community agree to follow the Dawson County Schools Code of Conduct, school rules and commit to the following responsible use guidelines.

I agree to:

- Use digital devices, networks and software in school for educational purposes and activities.
- Keep my personal information (including home/mobile phone number, mailing address, and user password) and that of others private.
- Show respect for myself and others when using technology including social media.
- Give acknowledgement to others for their ideas and work.
- Report inappropriate use of technology immediately.

The Responsible Use Guidelines, Use of Electronic Device Policy, and Internet Acceptable Use Policy will be reviewed each school year together with students and teachers and will provide a framework for teaching and learning around topics such as Internet safety, digital citizenship and ethical use of technology. *Adapted/modified from Forsyth County Schools Responsible Use Procedures.

Parents who do not wish for their child to use the Internet must request and complete an Internet Restriction Request Form from the principal. Once completed, the form will be kept on file at the school and alternate assignments will be provided whenever Internet use is an integral part of the unit. Although an alternate assignment will be given, the assignment cannot approximate the actual use of the Internet. Students who lack Internet skills will be at a competitive disadvantage when entering many professions in the future.

Internet Acceptable Use - Board Policy IFBG

I. Summary

Dawson County Schools provides electronic resources to students and employees for the purpose of supporting the school system and its educational mission. This policy establishes the boundaries of "acceptable use" of these limited electronic resources, including computers, networks, e-mail and other electronic information and services.

Authorized users of these electronic resources assume personal responsibility for their appropriate use and agree to comply with this policy, other related school policies including the Student Code of Conduct, and state and federal laws and regulations.

While our sole intent is to make Internet access available as another means to further educational goals and objectives, students may find ways to access other materials as well. We strongly believe that the benefits of the Internet and the wealth of information that is accessible, exceeds any disadvantages.

II. Purpose

A. Dawson County Schools' technology resources are provided to students, faculty, and staff in order to support the school system and its educational mission. These resources include networking, computer hardware and software, connection to the internet, e-mail, telephone equipment, voice mail and other services. The Policy on Acceptable Use of Electronic Resources applies to all authorized users of the school system's network or equipment.

B. Electronic resources provided by the system are limited. When demand for these resources exceeds available capacity, priorities for their use will be established and enforced. Authorized faculty and staff may set and change the priorities for these resources. The highest priority for use of system-wide electronic resources will include

uses that support the educational and business mission of the school system, purchased services and online testing.

III. Acceptable Use:

The use of personal electronic devices is a privilege, and students may be denied access at any time.

Staff and students who bring their personal devices to school are responsible for servicing those devices. The district will not maintain, service, repair or be held

responsible for any personal electronic devices brought to school by staff or students.

It shall be the responsibility of all members of the Dawson County Schools staff to supervise and monitor usage of the online computer network and access to the Internet in accordance with this policy and the Children's Internet Protection Act (CIPA).

XII. Security

Security on any computer system is a high priority, especially when the system involves many users. If you feel you can identify a security problem within the network, you must notify a system administrator. Do not use another individual's account or password. Attempts to access the system as any other user may result in cancellation of user privileges. Network administrators may review files and communications to maintain system integrity and ensure that users are utilizing the system responsibly.

1:1 iPad Student Agreement

Access and Support:

This Agreement is entered into between the Board of Education of Dawson County School System (hereafter "DCSS"), the student, and the Parent(s)/Guardian(s) of the Student.

DCSS will provide each student an iPad, which the student is to use as a positive learning tool in coordination with the DCSS curriculum. Although this Agreement authorizes the student's use of the iPad for the year, the iPad is the property of the DCSS and must be returned upon the DCSS's request, when the student withdraws, or on the last day of attendance for the current school year.

DCSS will also provide and manage a G Suite for Education account for your child. G Suite for Education Core Services are a set of education productivity tools from Google including Gmail, Calendar, Docs, Classroom, and more used by tens of millions of students and teachers around the world. At Dawson County, students will have access to G Suite for Education Additional Services including YouTube, Google Earth, and Google Photos. Students will use their G Suite accounts and access to additional services to complete assignments, communicate with their teachers, and learn 21st century digital citizenship skills.

To receive an iPad to use, the student and his or her parent/guardian must sign and submit to the DCSS this 1:1 iPad Student Use Agreement and the Acceptable Use Policy Agreement (AUP) outlined in Board Policy IFBG and successfully complete the Digital Citizenship course at his or her school.

In using the iPad, the student is subject to and must comply with DCSS Policies, JCDAG (harassment/ bullying), JCDAF (acceptable use of electronic devices) and IFBG (Internet Acceptable Use) and their associated administrative procedures or regulations. A violation of any of these policies could result in loss of network privileges, loss of right to use the iPad, or appropriate discipline, up to and including suspension or expulsion.

Students may not:

- a. Disrupt the educational process of the school district through non-educational use of the iPad;
- b. Endanger the health or safety of themselves or anyone else through the use of the iPad;
- c. Invade the rights and privacy of others at school through the use of the iPad;
- d. Engage in illegal or prohibited conduct of any kind through the use of the iPad; or
- e. Violate the conditions and rules as outlined in Board Policy JCDAG (Harassment & Bullying) and Board Policy JCDAF (acceptable use of electronic devices).

Students must keep the iPad in good and working condition. In addition to following the manufacturer's maintenance requirements, students should:

- a. Use only a clean, soft cloth to clean the iPad's screen. No cleansers of any type should be used;
- b. Insert and remove cords and cables carefully to prevent damage to connectors;
- c. Not write or draw on the device or apply any stickers or labels that are not the property of the District;
- d. Handle the device carefully and ensure others do the same;
- e. Not leave the iPad in places of extreme temperature, humidity, or limited ventilation (e.g., in a car) for an extended period of time;

- f. Secure the iPad when it is out of their sight. The iPad should not be left in an unlocked locker, a desk, or other location where someone else might take it;
- g. Use a protective carrying case with the device, if one was provided.

Unless otherwise instructed, the iPad is intended for use at school every day. If students are permitted to use the iPad at home, they are responsible for bringing it to school every day, fully charged.

Only legally licensed software, apps, media, or other data is permitted on the 1:1 device. Students will not download software, apps, media, or other data (including songs, photos, or videos) without a DCSS employee's prior approval. Students will not replace the manufacturer's operating system with custom software (i.e., "jailbreak" the iPad), or remove or modify the DCSS installed iPad configuration.

The iPads are District property; therefore, the District may examine the iPads and search their contents at any time for any reason. Neither students nor parents/guardians have any right to privacy of any data saved on the iPad or in a cloud based account to which the iPad connects. The school administration may involve law enforcement if the iPad is thought to have been used for an illegal purpose.

Parent(s)/guardian(s) are responsible for their child's use of the iPad, including any intentional damage to or loss of the iPad. In the event that a student's iPad is intentionally damaged the DCSS may assess the parent(s)/guardian(s) a charge to cover the cost of the repair. In the event that a student's iPad was lost or stolen the DCSS may assess the parent(s)/guardian(s) a charge to cover the cost of the replacement. If the theft/loss occurs on school property, administrators will follow current procedures and will notify parents. If the theft/ loss occurs off school property, the parent/guardian must contact local law enforcement, complete a police report and notify school staff within 24 hours. The decision to assess a charge, as well as the amount of any charge, is at the sole discretion of the DCSS, but will not be greater than the full replacement value of the iPad.

If a problem arises with the functionality of a student's device, the student must notify his or her classroom and/or home based teacher of the problem within 24 hours or on the next school day. Under no circumstances may the student or his/her parent(s)/guardian(s) attempt to fix or allow anyone but DCSS staff to attempt to fix suspected hardware faults or the iPad's operating system. Do not take the device to any repair shop; the student should report the issue to his/her classroom/homebased teacher, who will report it to the DCSS's technology department. If a student fails to return the iPad and any assigned accessories as directed, the DCSS may, in addition to seeking reimbursement from the student's parent(s)/guardian(s), file a theft report with local law enforcement authorities.

Although the DCSS employs Internet filters and monitors students' Internet activity at school, it cannot and does not filter or monitor students' Internet access at home or off school grounds.

By signing the student handbook receipt form, parents/guardians understand and acknowledge this and agree that their child's use of the Internet on the iPad at home or off of school grounds

is at the discretion of, and should be monitored by, the parent(s)/guardian(s). Some sites accessible via the Internet may contain material that is illegal, defamatory, inaccurate, or offensive to some people. Parents/guardians assume complete responsibility for Internet access beyond the network provided by the DCSS. When using the iPad outside the DCSS, students are bound by the same policies, procedures, and guidelines as in school.

Data saved to the iPad is not maintained by the DCSS as public records or as student records. In the event this data needs to be maintained by the DCSS for any reason, the DCSS will take affirmative steps to preserve it.

By signing the student handbook receipt form, you acknowledge that you have read, understand, and agree to follow all responsibilities outlined in this Agreement and agree to be bound by this Agreement. You also agree that the device was delivered in good working order and acknowledge that it must be returned to the DCSS in good working order. By signing this Agreement, you waive any and all claims you (and your heirs, successors, and assigns) may have against DCSS, its Board of Education, and its individual Board members, employees, and agents relating to, connected with, or arising from the use of the iPad or from this Agreement.

To the fullest extent allowed by law, you agree to indemnify, defend and hold harmless DCSS, its Board of Education, and its individual Board members, employees, and agents, from any and all claims, damages, losses, causes of action, and the like relating to, connected with, or arising from the use of the iPad or from this Agreement.

Use of iPads on the DCSS network is a privilege that supports school appropriate learning. The smooth operation and maintenance of the computer network and equipment relies on users adhering to established guidelines. Therefore, by signing the student handbook receipt form, users acknowledge that they have read the 1:1 iPad Student Use Agreement and understand the DCSS's expectations and the student's responsibilities.

By signing the student handbook receipt form, students and parent(s)/guardian(s) agree to abide by the restrictions outlined in the 1:1 iPad Student Use Agreement. The student's parent(s)/guardian(s) are responsible for monitoring their child's Internet access on the iPad beyond the DCSS network.

By signing the student handbook receipt form, I hereby give my permission to my child to utilize the DCSS 1:1 provided Mobile Device and for DCSS to create/maintain a G Suite for Education Account.
