
Name: Susan Muenchen

Subject Taught: Para American Government/Science

Phone number/ ext: 1862

About Me: My name is Susan Muenchen and I have been living the dream. I am married to Coach Muenchen and we have two amazing kiddos. Sam and Molly, both graduated from DCHS and are striving. I work with the most well rounded and free spirited students in the 9th grade. This is the best job in the building. I have been in the Education field for 33 years in a number of different capacities. However, this position as a 9th Grade paraprofessional is allowing me to be a part of an amazing administrative team, staff, teachers, co-workers, and the students! I love watching dreams come true for YOU. My goal as an educator is to create a community within itself and for each student that comes my way, they leave 9th grade more confident, assured, cared for, and yes, educated. Let's do this! Welcome to 9th grade and may you see yourself the shining light they you are!
