Online Learning Update

We have had a great start to online learning. Online learning has been a huge success thanks to all of the parents and students who are working so hard each and every day. All students are putting in their best effort and trying their best each day. I am so grateful and honored to be a part of this new way of learning for our students. Even though it is not easy, many of our students are thriving and doing very well in this new type of learning environment.

Blast Off!

Physical Science classes began with a bang the first week of school. Students explored the principles of aerodynamics by designing, building and launching their own Alka-Seltzer powered rockets. Launch results varied, with some students achieving maximum velocity and distance.

Others had more moderate results and a few rockets realized a failure to launch due to mechanical issues. Overall, it was a great experiment.

A Message from the Principal

Hello Tigers!!

First let me say thank you for a wonderful beginning to the school year! School under our current situation definitely looks different than it has in the past. However, I am very proud of both our faculty and students and the adjustments they have made for the new year. Thank you so much to all of our stakeholders for your commitment to DCJH and a successful start to the school year.

As move deeper into the year I am excited about the achievements and gains that our students are already making. I look forward to seeing each one of our students do great things this year. I would like to encourage each one of students to make this the best year yet at DCJH! Remember to be Ready, Responsible and Respectful!!

Always a Tiger,
Brody Hughes
